LEAD FRAME FOR AN INTEGRATED CIRCUIT CHIP (SMALL WINDOW)X COPY RECEIVED

Assistant Commissioner for Patents
Washington, D.C. 20231

MAY 17 2002

TECHNOLOGY CENTER 2800

Sir:

AMENDMENT AFTER FINAL REJECTION

In response to the Office Action of January 22, 2002, please amend the claims as follows.

IN THE CLAIMS

1. (Three times Amended) A lead frame, for an integrated circuit chip having a frame engaging bottom surface for attachment to the frame by means of a chip attach material, said chip being formed with outer edges having defined dimensions, said frame comprising:

a unitary apertured frame having a central through aperture therein including a plurality of [unitary] uniform sidebars each having an upper chip-supporting surface for engaging the bottom of the surface of the chip with the chip attach material therebetween,

each of said sidebars having an inner [side] edge and an outer [side] edge, said inner [sides] edges defining [an] the central aperture,
